# SunSmart Stabilizer

PROTECT CHLORINE WITHOUT ADDING CYA

**Beyond Stabilizer and Conditioner: The Future of Pool Chemistry**  
Traditional CYA based stabilizers are being left behind. Overuse has led to reduced chlorine effectiveness, cloudy water, and rising chemical costs. Rethink Poolcare introduces non-CYA technologies that simplify water management, enhance sanitizer performance, and deliver consistently healthier, crystal-clear pools.

## KEY BENEFITS:

- Boosts chlorine efficiency without CYA buildup
- Improves water clarity and reduces chemical complexity
- Lowers operational costs for professionals and homeowners
- Delivers predictable, high-performance results – no more “chlorine lock”

# MICRON 1

## INDUSTRY LEADING FILTER MEDIA

**Advanced Filtration. Engineered for Clarity:** Developed from over 35 years of R&D, Micron 1 is crafted from pure, selected recycled glass and activated through a proprietary 3-step process. This results in a self-sterilizing media that delivers certified 1 micron filtration - far surpassing sand and other media alternatives. Micron 1 prevents bacterial growth and channeling, while reducing chemical use, water use and energy use through more efficient backwashing. Compatible with all sand filters and built to outlast any other media.

### KEY BENEFITS:

- Filters down to an industry best 1 micron for crystal-clear water
- Self-sterilizing to prevent biofilm and bacteria
- Saves water and chemicals with fewer backwashes
- Longest lasting media in the industry and easy to install
- No system upgrades needed
