

PROTECT CHLORINE *Without* ADDING CYA

WHY RETHINK

SunSmart Stabilizer

Sun Smart Stabilizer = “No More Chlorine Lock”

Smarter Chlorine Protection - Patented Performance.
Sun Smart Stabilizer is a patented breakthrough that protects chlorine from sunlight without compromising its effectiveness. It's the smarter way to maintain balanced, crystal-clear water. Sun Smart Stabilizer is ideal for retailers and service pros looking to offer the industry best, high-value and reliable solutions.

KEY FEATURES:

UV Shielding Without Sacrifice

Prevents chlorine loss from sunlight without reducing oxidation power-unlike traditional stabilizers.

Enhanced Oxidation- Non-Living Organics Control

Breaks down oils, lotions, and debris faster-keeps water cleaner between visits.

Reduces Algae Growth

By Blocking sunlight and generating powerful oxidants, Sun Smart Stabilizer helps to prevent blooms before they start

Consistent Clarity

Maintains sparkling water even in high bather loads and other extreme conditions.

DEALER BENEFITS:

- Fewer Chemical Additions and reactive treatments
- More Predictable Water Chemistry
- Less Time Troubleshooting, More Satisfied Customers
- Exclusive Patented Technology that sets your brand apart

Sun Smart Stabilizer is the next-gen solution for professionals who want reliable water care, fewer headaches, and happier clients.
